WHEAT PRICE GOES UP TWO CENTS

SHIPPERS ARE LOOKING FOR A GRAIN MOVEMENT NOW.

Eggs and Butter Up to 30 Cents—Coal Shipments Fewer—Hog Market Brisk—Other Market News.

Grain shippers are looking for a grain movement shortly. For several weeks there has been but little movement of wheat, but warehousemen believe that about the middle of the month will begin to come in. Wheat is quoted at 100 cents in Gettysburg at 72, a rise of 2 cents over last week's quotation. There has been a fairly heavy shipment of pork from Adams county stations to city markets during the past week. The last six days the Hanover Produce Company at this place shipped 250 head of dressed hogs to the New York market. For this market it is important that the hogs are not allowed to freeze. They are shipped by express in cases in which the temperature is kept above the freezing point. Eggs are becoming scarcer than ever and are bringing 28 cents at wholesale, 30 at retail. Higher prices are expected by the beginning of next week if the cold weather continues. Reports from the great cities say that in some markets eggs cannot be had at any price. Fewer carloads of coal were received in Gettysburg last week than at any time during the past month. Few dealers have any coal on hand and are looking for a movement to be made for future delivery. During the week J. G. Wolf's store received 3 carloads and Kelly & Oyster one. Although coal is scarce there has been no suffering; and while in many places dealers have raised the price the Gettysburg dealers do not intend to call for \$25.00 a ton. There have been frequent quotations of late from Hanover and New Oxford, and several tons have been shipped to people in these places. Saved and sent in move along the coal road. Prices at the Gettysburg Warehouses.
